SPORTS CONDITIONING

Presented by

Mountain Center Physical Therapy

Instructor

Andrew Trowbridge ATC CSCS

General Information

The intent of this program is to raise the level of agility, proprioception, strength, and to shorten reaction time.

In the world of athletics today the athletes need an edge, one that is safe, monitored and prescribed by a professional with years of experience. This program is all of those. Having an athlete who is closely monitored by a professional while performing exercises ensures they improve their fitness level, while making sure they do not injure themselves by performing inappropriate exercises or unsafe techniques. Keeping your child safe and healthy is our first priority.

Full participation will yield maximum results.

Participation in a Sports Conditioning program is similar to competing in sports. There is a possibility of being injured. By signing up for this program you acknowledge that fact and release Mountain Center Physical Therapy, Mountain Center Performance Fitness, all of its employees, Kennett High School and SAU 9 of any and all responsibility.

Times and Dates

The MCPF Xplode conditioning program will be held 3 days a week (Monday, Wednesday and Friday) for six weeks beginning Monday, June 29th to Friday, August 14th. The classes will run from 8:30 a.m. to 10:00 a.m. at Kennett High School. This camp will adjourn for the week of July 13th and will reconvene on July 20th. Classes will not be held on July 3rd or 4th to observe the holiday and to allow participants to enjoy time with family and friends. Each session will last a minimum of one and a half hours with participants performing plyometrics, strength training, agility, quickness and reaction drills. We will also cover proper stretching techniques as well as adequate warm up and cool down progressions. All classes will be run in the gym, weight room and on the sports fields at the high school.

Instructor Information

Andrew Trowbridge is a Licensed, Certified Athletic Trainer and a Certified Strength and Conditioning Specialist. Andrew has 12 years of experience with sports conditioning with athletes at varying levels including youth, high school, collegiate and professional athletes. He has worked with Olympic Development Athletes and World Champion Wrestlers. Andrew is also a Certified Strength and Conditioning Specialist which is the only internationally recognized and most respected Strength and Conditioning certification available.
